Experience

Software Engineer   **Oct 2020 – Present**

CDE Full Stack Engineering, Cognizant Technology Solutions, India

As a Platform Engineer in the Full Stack Engineering (FSE) team, I maintain and expand the frontend platform and monorepo that supports over 100 teams and 1000+ frontend developers across multiple banking applications. I focus on CI/CD automation, performance optimization, and developer enablement to improve productivity and reliability. Skilled in scripting, Agile methodologies, and mentoring. Passionate about scalable solutions, automation, and continuous improvement.

Key Contributions:

- **CI/CD Automation:** Built and maintained pipelines supporting 1000+ builds/week; optimizing stages while securing the code to reach production asap.
- **Release Automation**: Automated releases process, reducing manual effort and increasing deployment reliability.
- **Frontend Platform Enhancements**: Led major library upgrades, enforced ESLint/Stylelint rules, and developed code quality dashboard.
- **Tooling Innovation**: Developed SneakyLint, a VS Code extension to detect suppressed violations and improve code hygiene.
- **Epic Ownership**: Delivered key initiatives including Vite dev server integration, adding playwright, storybook and long-term documentation strategies.
- **Full Stack Development**: Contributed to microservices-based projects deployed on cloud platforms.
- **Monitoring:** Updated Splunk events to reflect pipeline changes and added agent-level start events for accurate duration tracking.
- **Mentorship & Onboarding**: Created training materials and mentored new developers; supported incident resolution and documentation.
- **Strategic Impact**: Pioneered Cognizant's offshore presence in the Foundation squad, enabling team expansion and deeper client engagement.

Awards & Recognition:

- Xploration Day Winner - 2024
- Amber Award - For relentless effort in client area. 2023
- BFSI Delivery Award - For excellence in Rabobank digitization. Oct 2023
- FSE Guru Award - For mentoring in the FSE accreditation program. Dec 2022
- Bronze Award - For leading Libraries upgrade initiative. April 2022
- Sapphire & Coral Awards - For client engagement and extracurriculars. 2021
- FSE Bronze - Award for accomplishment and contribution towards the Full Stack Engineering Community. Nov 2021

Certifications:

- Designing and Implementing a Data Science Solution on Azure (2025)
- GitHub Copilot – Java Developer, AI Assisted, 2024
- Playwright Framework, Business Analyst Certificate, Relational Database Design, 2024
- Microsoft Azure Fundamentals (AZ-900) 2022

Volunteering & Events:

- Attended JSNation Amsterdam and NX Summit to stay updated with frontend trends.
- Participated in LEARN-A-THON, CHC 2022-23-24, Emergency Response Team (ERT), Cognizant Flex your mind challenge, and Wellbeing Olympics.
- Volunteered for outreach activities including plantation drives and collaboration with disabled children.
- Authored articles on coding concepts and contributed to Cognizant's KNOWEMBER initiative and client-level knowledge sharing.

Education

Bachelor of Technology   2016-20
CS, Galgotias University, Greater Noida

Skills & Technologies

- **Languages & Frameworks**: Angular (TypeScript), HTML, CSS, MySQL, Java (Spring Boot), Graph API, PowerShell
- **DevOps & Cloud:** Azure, CF
- **Tools:** Playwright, Splunk, ESLint, Postman, Git
- **Soft Skills:** Strong communication, analytical thinking, problem-solving, and team collaboration.
